

Empty cartons are automatically fed into the machine, their bottom flaps are folded, and bottom taping is performed automatically by the machine.

Operationally, it ensures continuous and efficient operation, reduces operator errors, and saves on tape.

Alternative models available for vertical and horizontal configurations to meet different capacity needs.

- Minimum box dimensions (L x W x H mm): 180 x 130 x 100
- Maximum box dimensions (L x W x H mm): 500 x 500 x 500
- Capacity (units/min): 9–11 boxes/min
- Magazine capacity: max. 130 boxes
- Suction plate: Replaceable suction plate  
(The machine is delivered standard with a single suction plate)
